

## Registration

Join the global leaders in subsurface water management at the world's pre-eminent conference devoted entirely to aquifer recharge. ISMAR7 is your opportunity to access cutting-edge innovations, industry-leading knowledge and expertise, and insight into the latest developments in aquifer storage and recovery.

Based on historical attendance, we anticipate attendees comprised of government agencies, water utilities, industry, and environmental consultants.

Register at:

[www.ismar7.org/register](http://www.ismar7.org/register)

Detailed fee structure available on website.

## Event Info

Recognized as the world's pre-eminent conference devoted entirely to aquifer recharge, this event offers you access to the latest scientific advances, project histories, and technological innovations in MAR.

ISMAR7 Theme: **Achieving Water Supply Sustainability and Reliability Through Managed Aquifer Recharge**

- Integrated Water Management
- Modeling and Groundwater Hydraulics
- Regulations/Governance/Economics
- Geochemistry during Infiltration and Flow
- Fate of Pathogens/Organics
- Operations and Management
- Injection and Pond Infiltration Issues
- Alternative Recharge System
- Water Reuse and MAR
- Enhancements in Aquifer Characterization
- MAR in Arid Environments
- Data Management, Monitoring, Automation
- The Role of MAR in Climate Change
- Risk Assessment and Uncertainty

## Schedule

Note: *Workshop, Session, and Poster Session topics are being finalized. These will be revealed early 2010.*

### October 9, 2010 – Pre-Conference Activities

- Pre-Conference Registrations
- Pre-Conference Workshops
- Welcome Reception
- Workshops
